

Local delivery you can count on.

UniHop is a monitored delivery service for local businesses. A live dispatch team watches every delivery from pickup to drop-off and steps in when something needs attention. Whether you run catering, restaurant, floral, or retail deliveries, UniHop helps you stay in control without managing delivery yourself.

 Real people.
Real monitoring.
Real difference.

Why businesses choose UniHop

Monitored delivery
A dispatch team watches each order from pickup to drop-off and steps in when needed.

Flexible delivery styles
Standard, Multi-Stop Routes, Special Handling, and Oversize.

Operational relief
Stay focused on your business while UniHop handles delivery coordination.

Nationwide coverage
Available across all 50 U.S. states and select Canadian markets. Orders accepted 24/7/365.

Full visibility
Real-time GPS tracking, SMS updates, photo confirmation, live support, and API access.

 **No commissions on order value** |  **No minimum orders** |  **On-demand or scheduled deliveries** |  **API available**

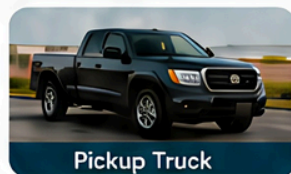

How UniHop can help your business

Built for catering, restaurants, flower shops, and other local businesses.

-  Replace marketplace commissions with first-party delivery.
-  Give customers branded tracking and updates.
-  Handle on-demand orders, scheduled deliveries, recurring routes, and catering runs.
-  Use the portal, configured routes, or API to send orders.

Flexible vehicle coverage

Bicycles to box trucks. Standard delivery, Special Handling, and Multi-Stop Routes — pick what fits your operation.
